Shell Script – Fibonacci Series

Aim:

To write a Shell script to generate a Fibonacci series using for loop.

Program:

```
echo "Enter number:"  
read terms  
  
a=0  
b=1  
  
echo "Fibonacci series:"  
for ((i=0; i<terms; i++))  
do  
    echo -n "$a"  
  
    fib=$((a+b))  
    a=$b  
    b=$fib  
done  
echo
```

Sample Input and Output

Run the program using the below command

[REC@local host~]\$sh indhu.sh

enter number
21
fibonacci series
0
1
1
2
3
5
8
13
21
34
55
89
144
233
377

OUTPUT:

Enter number:

10

Fibonacci series:

0

1

1

2

3

5

8

13

21

34

55

89

144

233

377

Result:

OK
Thus the shell script to generate Fibonacci series using for loop has been executed successfully
